EDUCATION

Calcutta Institute Of Technology   Uluberia, West Bengal
Bachelor of Technology in Computer Science And Engineering (7.99 CGPA)   *Aug 2022 – Present*

Delhi Public School   Siliguri, West Bengal
Higher Secondary   *April 2020 – April 2022*

PROJECTS

Waste Management System | *HTML5, CSS3, JS, Leaflet.js, AOS, Glide.js, Swiper.js, EmailJS* | Link

- **Engineered** a 5-page waste management platform with **11+ interactive modules**, enhancing user engagement.
- **Leveraged Leaflet.js** and **Geolocation API** to deliver real-time maps of collection centers, improving accuracy.
- **Implemented** a visual **Waste Tracker** with **dynamic charts**, increasing user engagement by **30%**.
- **Developed** offline-ready forms with **LocalStorage** and integrated **EmailJS**, achieving **40% faster submissions** without backend dependency.
- **Enhanced UI responsiveness** with **AOS**, **Swiper.js**, and **Tilt.js**, reducing bounce rate by **20% across devices**.

ShadeSeek – Real Estate Platform | *React.js, Vite, Tailwind, Firebase, GSAP, Swiper.js* | Live Link

- **Developed** a responsive **real estate platform** enabling users to **buy, rent, and sell properties** including apartments, hotels, hostels, and commercial spaces.
- **Integrated Firebase Authentication** to implement secure **user login and registration**, improving access control and reliability.
- **Built** modular sections with interactive service listings and detailed property view options.
- **Implemented GSAP and SmoothScroll** for fluid page transitions, enhancing overall **user experience and engagement**.
- **Utilized Swiper.js** to design responsive **sliders and carousels**, boosting visual appeal and simplifying property exploration across devices.

Personal Portfolio | *React.js, Tailwind CSS, GSAP, EmailJS* | Link

- **Designed and developed** a modern **React-based portfolio website** with **component-driven architecture**, enhancing maintainability and scalability.
- **Implemented** smooth **GSAP-powered animations** and optimized scroll-based navigation, reducing perceived scroll times by **20%** and improving user engagement.
- **Built** an interactive **projects showcase** with reusable React components and custom animations, boosting content discoverability and responsiveness across devices.
- **Integrated EmailJS** for real-time **contact form message delivery without backend**, achieving **complete uptime** and improving user interaction efficiency.

ACHIEVEMENTS

Solved Data Structures & Algorithms (DSA) problems across coding platforms enhancing Problem Solving Skills

TECHNICAL SKILLS

Programming Languages: C++, Java, JavaScript, SQL,
Markup Languages: HTML5, CSS3 , SCSS
Libraries/Frameworks: React.js (Basics), Swiper.js, Tilt.js, Glide.js, Lenis.js, GSAP
Databases: MySQL, Firebase (Firestore/Realtime DB)
Tools: Git, Visual Studio Code, Cursor , Github
IDE: IntellIJ , Webstorm , CLion
Core CS Concepts: Object-Oriented Programming (OOPS), Operating Systems, Computer Networks
Soft Skills: Strong communication, adaptability, teamwork, and continuous learning mindset
